SUMMARY

Full Stack Developer (B.Tech CSE, 2025) with 7+ live-deployed projects built using Django, React.js, Spring Boot, REST APIs, and MySQL. Delivered a 40% improvement in UI responsiveness and a 30% reduction in development time during internship. Strong collaborator with proven ability to communicate technical concepts clearly and deliver solutions on schedule. Seeking a Full Stack or Python Developer role to build impactful, real-world products.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML5, CSS3, SQL **Frameworks:** Django, React.js, DRF, Spring Boot, Express.js, Bootstrap, Tailwind CSS

Databases: MySQL, MongoDB **Runtime:** Node.js **Tools:** Git, GitHub, Postman, Docker, Swagger, Vercel, Render, VS Code

Concepts: OOP, REST APIs, JWT Authentication, RBAC, CRUD, State Management, Responsive Web Design

Soft Skills: Team Collaboration, Problem-Solving, Communication, Attention to Detail, Adaptability, Time Management

EXPERIENCE

Web Development Intern — Vault of Codes, Indore Oct 2023 – Nov 2023

- Developed 8+ responsive React.js pages, improving UI responsiveness by 40%; built a reusable component library that reduced development time by 30% across the team.
- Worked within a cross-functional team to optimize UI/UX workflows, boosting overall efficiency by 35%; managed all version control through Git and GitHub.

PROJECTS

SmartBank — Full Stack Online Banking Platform

React.js · Vite · Tailwind CSS · Axios · Django · DRF · JWT · Node.js · Express.js · MySQL · Vercel · Render

- Engineered an end-to-end banking platform with JWT authentication, account management, fund transfers, and transaction history tracking. [online-banking-system-eight.vercel.app](#)
- Designed a multi-service REST API backend using Django REST Framework and Express.js with MySQL, achieving full deployment on Vercel and Render.

RBAC Authentication System

React.js · TypeScript · Spring Boot · Spring Security · JWT · MySQL · Docker · Vercel · Render

- Built a Role-Based Access Control system with JWT authentication for ADMIN and USER roles as a technical assignment for BotMakers Pvt. Ltd. [rbac-auth-system.vercel.app](#)
- Implemented secure login, registration, protected routes, and Swagger API documentation using Spring Security and Docker for containerized deployment. Swagger: [rbac-auth-system-u5m9.onrender.com/swagger-ui/index.html](#)

Student Management System

Django · React.js · MySQL · JWT · REST API · Bootstrap · Vercel · Render

- Full-stack application with CRUD operations, JWT authentication, attendance tracking, and Excel/PDF export, reducing data management effort by 45%. [django-student-management-system-chi.vercel.app](#)

Expense Tracker

React.js · State Management

- Personal finance application with real-time state management, improving expense monitoring accuracy by 35%. [expense-tracker-app-ashy-seven.vercel.app](#)

Recipe Finder

React.js · REST API

- Recipe search application with third-party API integration and dynamic filtering, increasing search efficiency by 30%. [recipe-finder-rose-sigma.vercel.app](#)

To-Do App

React.js · CRUD

- Task management application with add, delete, and mark-complete functionality using clean React.js state management.
